```
Program              Instructions Written        Instructions Executed
                     and Points Awarded          and Points Awarded
----------------------------------------------------------------------

MAZE                 00 - 40  15                 0000 - 4999  15 pts
(aka NEXTVAL)        41 - 45  10                 5000 - 5249  10 pts
                     46 - 50  5                  5250 - 5499   5 pts
                     51+       0                 5500+         0

  4114 = Least instructions executed.
         That program had 32 lines written.

    30 = Least instructions written.
         That program executed 4268 instructions.

You may break either record separately ... executed or written.
However, to count as a record the program grade must be 100.
That is you must get the maximum points in all categories.
